ORIGIN OF THE REGISTER.

The first Edition of the *Register* was compiled in 1894 by Mr. A. H. Davis; all subsequent Editors must pay tribute to his ungrudging industry and thoroughness. Mr. W. S. Lee, O.D., edited the second edition and also the Supplement which was issued in 1904. Their prefaces are reprinted in these pages.

PREFACE TO THE FIRST EDITION.

In bringing his pleasant labours to a close, the Editor desires to thank all those who have helped him by promptly sending him the information required, and especially those whose contributions appear in the pages of the work.

It was a great pleasure to receive so many kind and encouraging letters from O.D.'s in all parts of the world. Some of the writers were known to the Editor, many were not; but all testified to the good feeling existing between the Old Boys, and to their affection for their old School. It is hoped that this record will have the effect of bringing back to the minds of all O.D.'s pleasant recollections of their school-days, and causing them to spread abroad the knowledge of their old School, so as to increase its prosperity and sphere of usefulness.

Only one letter of an unfriendly nature was received. The Editor hopes to make some comments on this and other amusing incidents of the compilation in some future number of the *Dovorian*.

In cases where no reply to his circulars (sent more than once) was received, the Editor has, as a rule, not recorded addresses which have not been verified by the O.D. addressed or his friends.

In view of bringing out new editions of the work, as occasion should arise, it may be mentioned:—

(1) That, if practicable, the next edition will be accompanied by photographs of the buildings in their old and in their present state, and possibly some portraits.

(2) The Editor hopes that all O.D.'s will notify to him from time to time any change in their address, occupation or profession, so that the labours of bringing out a new edition may be made as light as possible.

Any suggestions intended to make the book more interesting or useful will be gladly received.

Communications of this nature should be addressed to the

EDITOR, "DOVER COLLEGE REGISTER,"

THE COLLEGE,

DOVER.

Owing to various delays in the printing, the Editor fears that some of the details printed in the Register may be somewhat out of date. Where this is the case he would be glad to be informed as soon as possible; and if any general wish for it is expressed, would at once set about preparing for the issue of another edition in about a year's time.

An explanation of arrangement and abbreviations will be found on the next page. But the commonest abbreviations are for convenience explained at the foot of the pages of the *Register*.

PREFACE TO THE SECOND EDITION.

In preparing the present edition I have endeavoured to continue the record on the lines so successfully laid down by Mr. Davis in 1894. Unfortunately he is no longer with us to carry on the work which he began, but he left behind him when he went to a school of his own at Ilkley, a Supplement, brought out in 1896, which has been a great help in bringing the *Register* up to date. It has not been found practicable to follow his suggestion of adding to this edition portraits and photographs of the School buildings, and a few pages which were interesting and necessary in the first edition, have been omitted in order to gain space for the new matter which must increase in bulk every term.

There are still a large number of names for which no address can be found, and it has not been possible to make the list much smaller. Advertisements in all the leading papers have led to no result. No doubt there are many O.D.'s who can furnish a clue to the whereabouts of some of their contemporaries whose names at present stand without an address. If all purchasers would make a point of looking through the list and sending on such information as they could, I should be very grateful, and the next edition of the *Register* would be all the more complete and interesting for their trouble.

My thanks are due to all those who materially aided me in the work of preparing this edition by sending prompt and full

replies to the circular of enquiry, and especially to those who accompanied their replies with encouraging letters. There have been many who have been ready with their help in the actual work of collecting information and correcting proof sheets. I here thank them all, but it would be unfair not to mention my special debt to the present Editor of the *Dororian*, J. A. S. Pooley, who is a specialist on O.D. Military Intelligence, and to whose enthusiasm most of the latest military news to be found in this book is due. He has also compiled the Index, as well as revising the Athletic Records of the School.

PREFACE TO THE THIRD EDITION.

No one can be expected to read a long preface, especially if it be preceded by two others far more interesting. Yet the present Editor will be sorry if these few lines should go unread, because it is her only means of telling those who shall peruse the following pages, how much of the interest and information they contain is due to the kindness of Old Boys, and how in the satisfaction of bringing the third edition to its close, there is mingled a very real regret. Regret because of the incompleteness and unevenness of the work, and regret, because to lay it down involves the loosening of many threads and brings as it were to its close a very pleasant journey, wherein many old friends have been met again and—perhaps some new ones found. Who shall say?

It is hardly possible to mention by name all who have so readily given their help in gathering the material herein contained, but in thanking one and all, it would be impossible not to mention Mr. R. Norris, without whose zeal and untiring patience the present edition must have been far less complete than it is, Major S. S. Clarke, to whom no adequate thanks can be given for his keenness and unfailing diligence in working up to date and verifying the material for the Army List, to Mr. H. G. Harrison (who edited a former issue) for his help not only in placing it all in order but also in correcting the proofs, to Mr. W. S. Lee (second Editor of the

Register), Mr. W. Jacob, Mr. R. M. Bird, the Rev. R. J. Stone, Mr. H. N. Grylls-Watson, and many others, who in varied ways have ever given ungrudgingly their help and enthusiasm.

Much unevenness will be found in the biographies; but this has been unavoidable as some of the forms returned have given a complete outline, while others have come back almost a blank. The latter have been supplemented as far as possible from past numbers of the *Dororian*, but the result is anything but uniform. In view of the ever-increasing material, it would seem inevitable that future editions should be drawn up on slightly more limited and definite lines; even in the present issue the editorial pen has sometimes been unable to record all the details given, to wit, House Honours (saving Fives, of which recognition cannot otherwise be made) and Form Prizes.

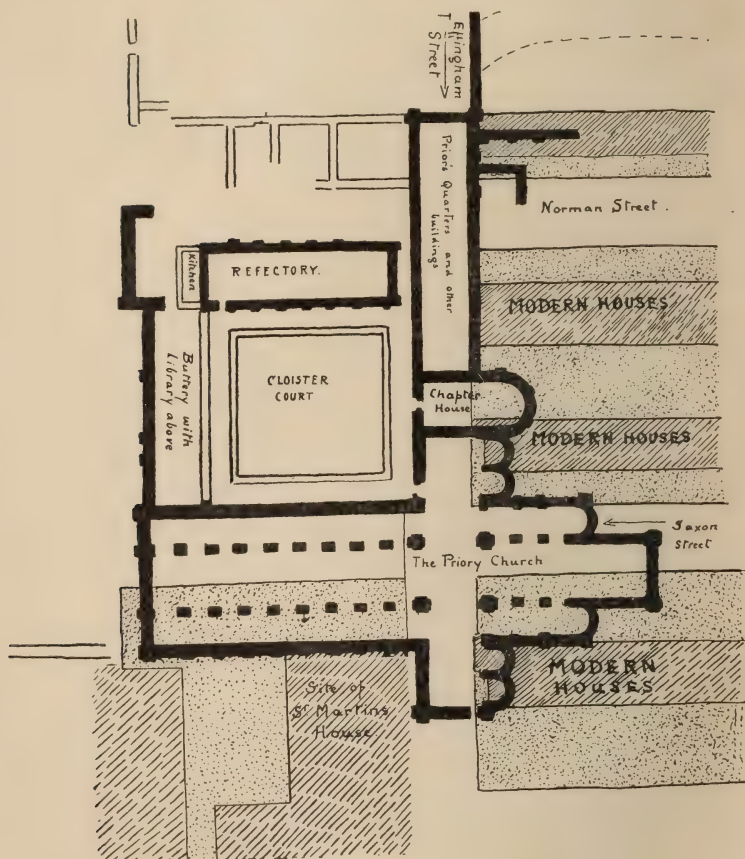

It will perhaps be a puzzle to many that where, in some cases, full particulars of one member of a family are given, there is silence about another. This has been unavoidable for various reasons, the chief of which is that it was not possible to keep back the *Register* till all the forms should be returned, although repeated efforts have been made to recover them. Here again and for the many failings that will be obvious from page to page, the Editor can only express her regret, hoping that the volume now sent forth will be to some the means of recalling memories of school-days that shall kindle anew their interest and keenness in their old School, and shall awaken maybe in some who have not thought of it, the idea that they too can help to make its future a great one.

DOVER PRIORY.

Within the Castle Precincts where a Church had been built, a College for six Canons and a Provost was founded before 640 by

Eadbald, King of Kent, son and successor of Ethelbert. Wictred (King of Kent) removed some of them to the valley beneath where he had built for them the Church of St. Martin, and the number

was increased to twenty-two. This was on the site of the ruins of St. Martin's-le-Grand to the west of the Market Square. In the reign of Henry I., Archbishop Corbeuil found the Canons guilty of great irregularities, and to prevent future evils arising from their living in the town, began in 1131 to lay the foundations of another Church to be dedicated to St. Mary and St. Martin, and intended for a Society of Augustinian Canons from the Abbey of Merton, in Surrey. Vehement opposition was set up by the Monks of Canterbury who had no thoughts of relinquishing their prize and wished to have the right of choosing the Prior. On the death of Archbishop Corbeuil, his successor Theobald completed the Priory Buildings (1139), and established a Society of Benedictine Monks. Continual dissension followed, but it was eventually decided that the new Priory should be as a cell of the Monastery of Christ Church, Canterbury (the Cathedral). Such it remained till its dissolution in the reign of Henry VIII., 17th November, 1535, when it was voluntarily (?) surrendered. The site of the Priory was then granted to the Archbishop of Canterbury and his successors, subject to certain conditions.

In building the Priory, Archbishop Corbeuil was aided by a grant from King Henry I. of a quarry at Caen, from which the stone for the earlier buildings was taken. The Bake House and Brew House were erected in 1231, on the north side of the Refectory. The Gate House was added in 1320. East of the gravel court which was surrounded by the Cloisters stood the Chapter House, and the site of the Prior's quarters and other buildings is now covered by Effingham Street and the houses of Saxon and Norman Streets. The Buttery with the Library over it extended from the wall of the Priory Church towards the end of the Refectory; from the west end of the latter a doorway led into the Kitchen, the site of which is now occupied by the small Fives Courts. There were buildings on the left of the Gate House, on the site now occupied by the Priory House, and these were in Early English style. The Priory Church, of which nothing can now be seen but the foundations of the west front (at the end of the Ruins), was a building nearly treble the length of the Refectory, and almost three times as broad (280ft. by 70ft.). It had side aisles and transepts with two altars in each, a central tower and perhaps two towers at the west end. Effingham Street now cuts straight across the transepts, and the meeting of the grass plot in

front of St. Martin's and the gravel playground marks the line of the north wall of the nave. In the nave was the altar of Thomas de la Hale, a Monk of the Monastery, who was killed by the French in one of their raids because he refused to reveal the place where the Priory treasure was hidden.

What is now our Chapel used to be the Guesten House of the Priory, and here pilgrims to the shrine of St. Thomas of Canterbury (commonly known as Thomas à Becket) must often have received food and shelter: indeed it was partly owing to the heavy calls on their hospitality that the Monks became so impoverished. The fire-place at the west end presents a problem because its external appearance suggests that another building must have been attached for which it also did duty. There was a dividing wall across one of the bays in the Guesten House which formed an inner chamber, the kitchen.

Of the Library nothing is known except that the Catalogue now in the Bodleian at Oxford shows an entry of a much larger number of volumes than is usually found in monastic libraries of that early date. Of the 450 volumes only about fifteen are known to be in existence, and four of them are at Corpus Christi College, Cambridge.

It will surely interest all Old Boys to know that a monastic school existed in the days of the Priory; the founder is yet unknown but we hope that the Rev. F. L. H. Adam, O.D., to whose patient and enthusiastic research we owe most of what we know about our Priory, will soon discover both him and the date of the school's foundation. That this school existed is proved by the fact that there is a catalogue note in the Bodleian, stating that one of the volumes (a Bible) was given by the "Scholares of Douorr." Also in the Inventory of the Priory at the Dissolution, mention is made of certain articles found "in the Scholemaster's Room," but where that room was situated is not known at present.

The Coat of Arms shown in the frontispiece is taken from the Cloisters of Davington Priory near Faversham. It was adopted by Dover Priory in 1140 when Anselm became first Prior.

The original doorway of the Refectory was in the first bay on the south-west side, and there are traces of an Early English door in the next bay. The triplet of arched recesses is all that remains

of the Monks' lavatory. Besides the fresco of the "Last Supper" at the east end of the Refectory, there were not very many years ago remains of a painting on one of the side walls, probably one of the oldest examples of this kind of decoration existing in England in 1850. The aperture in the south wall (near the fresco) no doubt held part of the Priory plate. The ground at the end of Effingham Street is described in old leases as the Convent Garden, and was probably the Priory Garden; it is also probable that the Monastic Cemetery was situated somewhere here.

A scheme has been lately unfolded by Mr. Adam for placing in the Refectory a complete series of stained glass windows which shall embody the greatest figures connected with the history of the Priory, *e.g.*, our Patron Saint; Eadbald and Wietred, Kings of Kent; Archbishop Corbeuil, builder of the Priory; Theobald, its founder; Anselm, first Prior; Archbishop Richard; St. Thomas of Dover, and King Stephen, who died in the Priory, and many others, together with the old Priory Coat of Arms and the Arms of the Monastery of Christ Church. Mr. Adam also proposes that we should get reproductions of all the old Priory Seals still extant, to be placed in a glass case in the Refectory. The death of Dr. E. H. Elwin, our first O.D. bishop, has suggested to Mr. Adam the idea that the first of the windows should be given as a memorial of him, and that it should represent St. Martin, Bishop of Tours. When it is so difficult to raise funds, we cannot hope in our time to see the fulfilment of the whole scheme, but at least we can lay its foundation and do what we may to adorn our heritage and present in its windows something of its history.

There is in contemplation a second scheme which we may mention suitably in this place because it is also of a commemorative character. This rough outline of the Priory history will make it clear that the details will be full of interest for Old Dovorians. Mr. Adam has made a life-interest of this history, and if Old Boys will manifest their sympathy with him, he is ready to publish a volume which will shed light upon those nine dark centuries and will reveal some of the great figures whose lives were so closely knit with the buildings that are our inheritance to-day.

E. D.

A SKETCH OF THE HISTORY OF DOVER COLLEGE.

When Dover College was opened in 1871, the place looked very different from what it does now. The whole of the property belonging to the College at that time consisted of St. Martin's House, the College Hall, and the Gate House. From the north-west corner of the College Hall there ran a high wall to the Gate House, forming an arc of a circle. At the commencement of the first term the Hall was undergoing restoration and could not be used. The Gate House had a roof on, but was otherwise in a half-ruinous condition, and was, in appearance, very picturesque. The only inhabitants of it were owls, and it was possible to bring them out at any time of the night or day by jumping on the floor at a certain place. The ground on which the Priory House now stands was outside the boundary, and no houses stood between the College premises and the railway. What is now the Chapel was a picturesque old building, divided up by wooden partitions so as to form a stable, a cow-house, and a scullery for the farm-house which stood on part of the ground now occupied by the School House. The farm-house was partly an old timbered house, and partly of brick. The whole place was extremely picturesque, and had been still more so in former years. The ground between the Hall and the farm-house was used as a potato garden, and between the potato patch and the farm-house there was a broad road, in continuation of the road which runs up to Effingham Crescent. The trees which are now in front of the School House were standing inside the garden belonging to the farm. The gravel playground to the south of the Hall existed then as it does now.

Amid such surroundings the College began its career on September 12th, 1871. The number of boys who appeared on that day was fifteen; there were, however, three more entered, and before the end of the term there were twenty-one in attendance. Of these twenty-one, fifteen were day boys and six were boarders.

The preparation room at St. Martin's House, as it was then

arranged, was the only school room for the first term. The Staff consisted of the Headmaster, with the occasional help of M. Chambert, a Frenchman. This was not a very brilliant beginning, yet the first term was in many ways a very pleasant one, and left pleasant memories to all who were then in the College. The weather was exceedingly fine, and boarders and day boys all appeared every half-holiday to play cricket or football.

Just as cricket was ending and football beginning, the quiet school-life was interrupted by an interesting ceremony, for it was decided that there should be a Public Opening of the College. The Hall was then finished, and perhaps no better room could be imagined for such a ceremony. If we were happy in having such a room, we were no less happy in having the late Earl Granville for our President, who was always peculiarly successful in presiding at such ceremonies. A procession was formed at the Town Hall, and marched through the Gateway to the College. The principal feature of the proceedings was a speech by Earl Granville, which attracted considerable attention at the time. When the ceremony was over the company returned to lunch at the Town Hall, where there were many more speeches, and many expressions of goodwill towards the College. The day was bright and sunny, and, altogether, the opening of Dover College was an imposing ceremony, successfully carried out. So, after beginning very quietly, the College all at once woke up to fame. The next day a full report of the opening appeared in the daily papers, and the *Morning Post* went so far as to honour the young institution with a leading article. The event was annually commemorated by observing October 4th as a holiday.

After Christmas there was a considerable increase in the number of boys, and a Mathematical Master was also added to the staff of teachers. During this term a field was rented for Cricket and Football near Elms Vale Farm. It was held by the College for about two years, and would have been very useful if it had been nearer the College.

After Easter, the number of boys mounted up to a little over fifty. At this time a series of cricket matches were played with the Preparatory School, which afterwards moved to Castle Mount. Mr. Chignell was then Headmaster, and the school was conducted at West Mount, where there is now the Junior School.

Masters played on both sides, and the fortune of the matches generally turned upon the length of time Mr. Chignell kept up his wicket, as the little boys played well, but could not make much of a score. These matches took place in what is now the lower level of the Cricket Field, which was at that time rented by Mr. Chignell. As one looks back, it seems that the days then were all sunny, the players endued with a double portion of good humour, and the games more full of interest than games could have been where so little was at stake.

Any picture of life at Dover College during these early days would be wholly incomplete if it did not include some mention of Mrs. Bell. Perhaps there never was anyone who took such delight in the society of boys as she did, so long as she enjoyed even tolerable health. At that time she planned her whole life so as to be with them as much as possible. She took charge of all the boys' clothes during those early years; and did most of the work which is commonly assigned to a matron. But she was so rapid in her work, that she could always keep free the hours that the boys were out of school. She might in years have been their elder sister. No elder sister could have been more interested in brothers than she was in the boys of Dover College. The elder boys were her friends and admirers, and some of them spent a large portion of their pocket money in buying for her flowers or other little presents. The younger boys were in their way no less devoted to her, and one little boy was taken away from the College because he showed a marked preference for Mrs. Bell and the College as compared with his mother and his home. And she did not win their affections by indulgence; on the contrary, no one was more severe on idleness and breaches of discipline. She frequently sat with the boys when preparing their lessons, if Mr. Bell were otherwise engaged; and no master ever enforced better order.

In their games she took the most lively interest, sometimes keeping the score at cricket, and never being absent from a football match. Even on the most stormy day of winter she would take up her position at some place where she could see the game, and gathering round her the greatcoat of one of the biggest of the players, and attended by one or two boys who were as enthusiastic as herself, she would watch every point of the game from first to

last. In time of sickness, too, she could be one of the kindest and firmest of nurses, and an attack of measles which broke out within the first two years proved rather a benefit than otherwise, as the boys gave such favourable accounts of the nursing and kindness which they received, and it gave parents increased confidence in the management of the School House. Young and beautiful, and possessed of marvellous vivacity, and full of sympathy for others, she gave up her whole life and thought to the boys, and received in return their devoted affection. Yet even then she had times of great suffering and depression, which were known to one only beside herself.

At the end of the first year the prizes were distributed by H.R.H. the Duke of Connaught, who was at that time quartered with his regiment in Dover. The reports of the Examiners were very favourable, considering that it was a new school, and His Royal Highness congratulated all connected with the College on the successful beginning which had been made. He ended his speech by requesting for the boys an extra week's holiday, which was granted with pleasure.

At the beginning of the second year Mr. C. E. Sparke joined the College. He was then a good all-round cricketer, but especially useful as a bowler. He also played football well. At that time, and for many years afterwards, all the masters spent their half-holidays at cricket and football. This had much to do with the success of the School. The masters and boys knew one another thoroughly, and this intimate knowledge only increased their mutual respect. At one time the masters could make up an eleven which could beat the boys,* and at football they were perhaps better still. It may be news to the younger generation that Rugby Union and Association Rules were then unknown. The first young master who came from Cambridge brought with him what were called the Cambridge University Rules, and these were adopted by the College for a time. When the first matches with the King's School, Canterbury, were played, the agreement was that the play should be in accordance with their rules on their ground, and in accordance with our rules on our ground. The result was profound dissatisfaction on both sides. After two years

* The Masters played the School at cricket in 1893, the first match of the kind for many years, and beat them.—[ED., D.C.R.]

we took over the present cricket field from Mr. Chignell, which we rented, as he had done, from a butcher. The lower part of the field was then much as it is now, but the upper part was very uneven, and fenced off for the use of fat bullocks. We had no professional, no ground man, and so had to prepare our pitch before we could play on it. Yet I am not sure that we were not in those days quite as contented as the present generation.

It may be asked what kind of fellows the early boys at Dover College were. Well, there are a good many alive to answer for themselves, and they are well able to do so. They were very much the same sort of boys as we have now, only they were younger. In any new school it is generally found that Classics are a weak point at the start, and Dover College was no exception. There were a few who played Cricket wonderfully well for their age, and they were all devoted to Football, as Dover College boys always have been, perhaps because their Headmaster set them the example. In intellectual power, perhaps the twenty that first entered would compare not unfavourably with any twenty which entered in any subsequent term. Some of them have done very good work already, and may be expected to do still better in the future. They all, without exception, at once attached themselves to the place and became, without hint or guidance of any kind, enthusiastically loyal and patriotic, it is also very wonderful, when one thinks of it, how well they got on together. I suppose that there were now and then jealousies and heart-burning, but if there were any such they were kept well under, for they never appeared on the surface ; from all of which it will be understood that at its beginning Dover College was very much the same in tone and feeling as it has continued to be throughout its career.

It may seem to some that too much has been said of these early days, but it must not be forgotten that those early days had much to do with making Dover College what it is. When it was started, no one expected that it would be more than a local day school ; many openly prophesied that it would be a failure. Its early success was entirely due to its staff and to its pupils. The pupils did well, and expressed great affection for their School, and so an ever-increasing number of pupils kept flowing to the School. The Governing Body, for the first fifteen years of its existence, confined themselves almost entirely to providing additional accom-

modation as it was required, and left the management of the School in the hands of the Headmaster. Undoubtedly the Council did its part of the work well, and helped forward the College by providing good buildings, but the motive power which pushed the College ahead was in the Staff, as it is in every school which prospers.

It remains now to indicate the various stages of development as shortly as may be. The growth of the College was very rapid, considering that it had no endowments of any kind, and within about three years the Headmaster's house was filled with boarders, and he was urging the Council to extend the buildings of the College. It was not, however, before 1876 that anything was really done. In the meantime, the Headmaster had rented No. 2, Christ Church Villas, which was soon filled with boarders, and after this was accomplished, Mr. Sparke started his career as a House Master, by renting No. 1, Christ Church Villas. In 1877 the new buildings were completed, which had been begun in 1876. These buildings consisted of Priory House and the Class Room attached to the Hall.

The boundary line of the College Property was at that time extended to the road which then ran in front of the present School House, and to the other road which still runs in front of the Priory House. Though so much had been done in a short time, the Headmaster had a desire to do more, and he remembers that about the time when the buildings were completed, he one day offered to a Committee, who were inspecting them, that he would contribute £100 towards the restoration of the Ancient Guest House for a College Chapel, if they could obtain it and carry out the restoration. The Headmaster took possession of Priory House after Easter, 1877, and found it a very convenient and pleasant house. Mr. Sparke then moved into St. Martin's House, and the two houses which had been rented were given up. The number of pupils in June, 1877, was one hundred and twenty, of whom fifty-four were boarders.

The growth of the College during this period was very rapid, and in June, 1879, the number of boarders had increased to ninety-four. The Headmaster's house and Mr. Sparke's house were both full, and another boarding-house had been commenced, of which a short account must be given.

The House Master was the late Mr. C. E. Steedman, M.A., at that time the Principal Mathematical Master, a man of whom all who knew him have the most pleasant recollections. He was a successful teacher, and fond of games, but the great charm about him was his magnificent bass voice, and his great love of music. By that time we had come to have services in the College Hall, on Sunday evenings, instead of going to St. Mary's, and Mrs. Bell and Mr. Steedman, as organist and choirmaster, took the chief part in preparing the Choir for the musical portion of the services. In addition to this, Mr. Steedman took a leading part in the concerts and other musical entertainments which were given. The house he occupied is now Christ Church Vicarage, and traces of its former occupation by the College may still be seen in the bricked-up doorway leading from the College Close into the Vicarage Gardens. His career as a House Master was, unhappily, a very short one. In August, 1879, he was married, and within a year he died at the College.

In the meantime, active steps had been taken to increase the accommodation for boarders once more. The Council had acquired the ancient Guest House, with the quaint farm house attached to it, in 1879. It was found that the road which ran in front of it had never been made over to the public, so that the Council on acquiring the land on both sides, closed up the road and gave the grounds the appearance which they now have. Before commencing the new house they determined to restore the Guest House for a chapel. A considerable sum, not less than £600, was raised by subscription to carry out the restoration, and the extra cost was met by the Council out of the funds of the College. This was finished some time before Mr. Steedman's death in July, 1880. The School House was also completed in the year 1880, and the Headmaster began to occupy it in January, 1881. At the same time, Mr. Sparke left St. Martin's House and entered Priory House.

There was now ample accommodation for the boarders in the two houses, and the boarders who had been in Mr. Steedman's house were transferred to the School House.

St. Martin's House stood empty for a little while, but, as the other houses were soon practically full, it was enlarged, and opened by the Rev. F. B. Walters, in September, 1881.

St. Martin's House, as restored and enlarged, rapidly filled, and within three years, plans were entertained for building a new house on the hill behind the Chapel, but they were not carried out.

Meanwhile, improvements had been carried out in other directions. The upper part of the Cricket Field had been levelled and brought into its present form in 1881, under the direction of Mr. Chignell. It was a work of great labour and expense, but when it was done, the College had at last a cricket field worthy of it. When this work was completed, the Headmaster set about raising money to build a Cricket Pavilion, and the present building was erected shortly afterwards.

In the same year another great improvement was carried out at the College in the restoration of the Gateway, by Sir Richard Dickeson. The people of Dover, who were desirous of showing their appreciation of Sir Richard Dickeson's liberality and public spirit, subscribed a considerable sum of money which was to be spent in raising some lasting memorial of their gratitude. As it was left to him to choose the form of the memorial he decided to restore the ancient Gate House of the College, that it might serve as a Library. When he had carried out the restoration, at a cost considerably beyond the amount contributed, he handed it over to Earl Granville, the President of the College, in October, 1881. It has proved to be one of the most useful, as it is acknowledged to be the most beautiful, of the College buildings.

It has been stated that the College Chapel was restored in 1880. It must be understood, however, that at that time only the necessary work was done to render it available for use as a College Chapel. Since that time many additions have been made to the building and the furniture, the effect of which has been to make it one of the most beautiful and interesting of College Chapels. The east end was at first a dead wall, and the College owes to Dr. Astley, Chairman of the Council of the College, the beautiful Apse, which he added at his own cost in 1886. To the same kind benefactor the College owes the charming organ, which he placed in the Chapel in 1882. Mr. Sparke was the donor of the eagle, and inscriptions indicate the donors of the numerous windows which have been given from time to time. The last addition was the clock which was placed in the turret at the

south-west angle of the Chapel, as a memorial of Mrs. Bell, in the year 1892.

The last addition made to the buildings of the College in the time of its first Headmaster was the Gymnasium, which was built in 1886.

It would be interesting to many to have here some record of the development of the College as a place of education, but it would take more space than can be spared, and it has been thought better on the whole to omit any such attempts for the present.

The growth of the College was, for the first sixteen years, very rapid, and was the subject of constant congratulations to all concerned.

It is full of promise for the future that the Old Dovorians are so devoted to their School. The publication of the record, in which this will appear, is an indication of the strength of the ties which bind the past to the present. The time will soon come when the second generation will be inhabiting the beautiful buildings where their fathers passed their school days. May they keep up the good traditions of the past, and improve upon their fathers, if they can, by feeling an even greater affection for a School which grows more and more in prosperity and fame!

W. B.

Mr. (now Canon) Bell's successful Headmastership came to an end in July, 1892, and he was succeeded by the Rev. W. C. Compton, who had formerly been a House Master at Uppingham, in the days of Edward Thring. A new venture was started during his first term, and in January, 1893, the Junior School, a preparatory department of the College, was opened under the care of Mr. A. H. Atkinson, at West Mount, the beautiful house once occupied by Mr. Chignell and later by Mr. Jollye. The Junior School forms an integral part of the College, the boys coming to Chapel on Sundays and taking their places when fit for it in the Choir, besides enjoying the use of the Gymnasium and fields. Their names will be found in their place according to their term of entry, and distinguished by the letters "J." or "J.D." (Day Boy).

In 1893 the Chapel was enriched by the gift of a pulpit, presented by Dr. Astley.

In 1896 Mr. Compton built two covered Eton Fives Courts abutting on the wall between the Library and the Priory House. These have proved to be a great resource on wet days.

In 1897 Dr. Astley provided the School with a set of new Class Rooms in place of the two Class Rooms adjoining the Refectory. The roof of the old building was removed and the walls were carried higher so as to make room for two storeys. The upper one contains three rooms, the lower three more and a small museum. The rooms are decorated with pictures which were provided by subscription among the masters and friends of the College. New Laboratories for Physics and Chemistry (with a Lecture Room) were erected in 1902 at the east end of the upper ground (behind the School House), and a Sanatorium at the west end. The Workshop was rebuilt and four new Music Rooms added in 1904 by Dr. Astley, who also, among many other benefactions, rebuilt the Chapel and Refectory Organs, both of which were originally his gift to the School. The latter was enlarged as a South African War Memorial, the names of all Old Boys who had taken part in the War being emblazoned on a frieze running the whole length of the south wall of the Refectory. On the north wall, a similar frieze was presented by Canon Walker Flower, which bears the names of Old Boys who have been on active service in other campaigns.

Dr. Astley, to whose munificence the College owes so much of its equipment, was the first Chairman of the Governing Body. On retiring in 1903, he was succeeded by Lord Northbourne, who has shown great interest in the College and devoted much time to its affairs. Under his chairmanship H.R.H. the Prince of Wales kindly consented to become our President. Former Presidents were the Lords Warden of the Cinque Ports for the time being, viz., Earl Granville, the Right Hon. W. H. Smith, M.P., the Marquis of Dufferin and Ava (who presented the portrait of himself now hanging in the Refectory), the Marquis of Salisbury, K.G., and Viscount Curzon of Kedleston; the last named resigning when he gave up Walmer Castle and the Office of Lord Warden.

THE OLD DOVORIAN CLUB.

BY AN O.D.

If figures are any indication of prosperity, the O.D. Club may be accounted in a flourishing and healthy condition to-day. When the record of the Club was last written in 1899 there were 150 names on the roll. The last ten years has seen that number nearly trebled, for there are now 420 members, and the increase has been one of steady growth. Happily, however, numbers are not the only indication of our progress. Starting as little more than a Cricket and Football Club, it has become, doubtless through its sports, a Club of far wider interests and far greater sympathies, and to-day it is probably not too much to say that thanks to the Old Dovorians many Old Boys have come to look upon their School as their true "Alma Mater," more really than many of those over whom a University would claim foster-parentage. Success at School, possibly even happiness, may not be the lot of all, but there comes a time when the brooding mother draws all her sons back to herself and when those who have aforetime given and received least, find their sympathies awakened, their keenness aroused and they join the Old Boys' Club with a grateful desire to do something for their old School. And yet the question "Why should I join the O.D. Club?" is even now sometimes asked. Surely the true answer is to be found in the spirit of Robert Browning's words:—

"Here and here did England help me; how can
I help England—say."

PURCHASE SCHEME.

It was a feeling somewhat akin to this that led many O.D.'s to support the scheme proposed by A. W. Bartlett for the purchase of Shares in the College Company, and more recently the initiation of the O.D. Scholarship Fund. To the former the O.D. Club subscribed £100 and a considerable fund was raised and vested by a trust deed in a Committee of which A. W. Bartlett was ap-

pointed Hon. Secretary. Nearly a fifth of the Shares have been purchased by Old Dovorians, and the originator of the scheme has since been elected a Member of the College Council.

O.D. SCHOLARSHIP FUND.

In order to make up to the College in some degree for the absence of an Endowment, and the serious handicap which it involved, the Officers of the O.D. Club issued a circular in 1907 inviting subscriptions and donations of 5/- and upwards to a fund which should be vested in trustees and devoted to the good of the College. A few subscriptions were paid and more promised. In 1909 a meeting of Subscribers was held in London, and it was decided to devote the money at present available to the foundation of Scholarships tenable at the College by the sons of O.D.'s.

The following circular was sent out :—

6, NEW SQUARE,

LINCOLN'S INN, W.C.,

November, 1909.

DOVER COLLEGE.

O.D. SCHOLARSHIPS.

At a meeting of Subscribers to the O.D. Fund, for assisting the School Foundation, held in London, on October 13th, it was decided to devote the money at present available to the foundation of two Scholarships, each of the annual value of £20 tenable at the College by the sons of O.D.'s who need pecuniary assistance in order to send their boys to the old School. The Scholarships will be open to boys who have reached the age of 9 and are not more than 14 years old. The character of the examination will depend upon the age of the candidate and an age allowance will be made. The Scholarships will be tenable for the whole of the boy's time at the College, provided that his conduct and industry are satisfactory. A report will be applied for annually before the grant is renewed.

Parents of candidates will be required to furnish satisfactory evidence of the need of financial assistance to the Rev. Canon Wm. Bell, Cranbrook Vicarage, Kent, who is President of the Committee, and who alone will deal with this question. It is not proposed to award either Scholarship earlier than Easter, 1910.

Forms of application together with particulars of the examination can be obtained from the President. The selection will rest with the Committee which is, at present, constituted as follows :—

REV. CANON W. BELL, <i>President</i>	MAJOR S. S. S. CLARKE
A. W. BARTLETT, <i>Hon. Sec.</i>	R. M. BIRD
R. NORRIS, <i>Hon. Treasurer</i>	M. S. ROGERS
THE HEAD MASTER, <i>ex-officio</i>	P. L. RAWES
E. BRADLEY	W. S. LEE

It may be well to mention again that the money for these Scholarships is provided by contributions from O.D.'s, some of whom promise annual subscriptions, while others give a special donation. The contributions vary in amount from 5s. to 5 guineas. The Committee hope that the Fund will grow and that all Old Boys will do what they can, either by annual subscription or special donation, to assist the Fund which is intended to supply the place of a Foundation, and will not necessarily be devoted entirely to Scholarships.

Yours faithfully,

ARTHUR W. BARTLETT,

DOVER WANDERERS.

In the summer of 1898, owing mainly to the energy of W. F. Hackman and F. G. C. Hartopp, an Old Dovorian cricket week was arranged, which proved so successful that all concerned were anxious to make it an annual fixture. With this object the Dover Wanderers were instituted as an athletic side of the Old Dovorian Club. It was hoped that the Wanderers might serve as a means of strengthening the Old Dovorian Club by drawing together the most prominent athletes, and making it always possible to put strong Old Dovorian cricket and football teams into the field, and arrange tours, while election to them would be a distinction to which boys still at School might look forward. A large number of the most prominent members of the School would in this way be secured as members of the Old Dovorian Club.

The Committee elected members from Old Dovorians who were members of the Old Boys' Club. A complete list is appended:—

DOVER WANDERERS.

The Wanderers' Colours were originally black, white and purple, but it was found advisable afterwards to make them more distinctive by adding a narrow stripe of red.

In July, 1909, the object with which the Club had been started being now better served by the O.D.R.F.C., since the two Clubs were overlapping, it was decided to give up the Wanderers.

THE OLD DOVORIAN CLUB FROM 1887-1899.

BY AN OLD BOY.

(Reprinted and revised from the last edition of the Register).

On the occasion of the annual Past and Present Football Match at Dover, on December 10th, 1887, there was a meeting of Old Boys to discuss the desirability of forming an Old Dovorian Club, with its headquarters in London, for the purpose of football, cricket, and social gatherings.

Richard Norris was the proposer of this scheme, which was received with general approbation.

A Committee was thereupon elected, which consisted of the following :—Rev. Wm. Bell, President ; C. E. Sparke, Esq., E. T. Littlewood, Esq., Vice-Presidents ; T. D. Bell, R. M. Bird, M. W. Dixon, B. Hunt, R. W. Hunt, F. H. Maugham, E. A. Plunkett, C. B. Pike, C. G. Wellesley, and E. B. Woodman, Committee ; with R. Norris, Hon. Secretary and Treasurer.

Previous to this date, however, it should be stated that it had been a general custom to play an annual football and cricket match between the Old Boys and the Present, at Dover, the first of these being the football match in December, 1876 ; and the cricket match in the following summer.

Since 1876 annual visits have been paid for football matches (except season 1881-82) and cricket (except 1881), up to the time of the formation of the Old Dovorian Club.

The meeting, besides electing a Committee for the management of the Club, decided to have a dinner at an early date in London, to which all O.D.'s were to be invited.

The Committee met for the first time on December 16th, and sent notices out to those whose addresses were known, acquainting them with the formation of the Club, asking for their support, and inviting them to the dinner.

The subscription was fixed at 10s. and 5s., for playing and non-playing members respectively.

1888.

Mr. Bell presided at the first Dinner, which was held at the First Avenue Hotel, on January 12th, 1888.

It may be of interest if the names of those present be added:—C. E. Sparke, Esq., E. T. Littlewood, Esq., Rev. F. B. Walters, A. E. Gibson, Esq., C. R. Haines, Esq., G. L. Colbourne, Esq., L. Happé, Esq., Rev. H. Garrett, F. Bampffield, C. Beadle, T. D. Bell, R. M. Bird, F. Bower, F. R. Brown, M. W. Dixon, W. Emanuel, P. Evans, M. Greig, J. C. H. Greig, E. Hunt, B. Hunt, R. W. Hunt, W. Jacob, G. W. Keeling, C. Mason, H. N. Maugham, R. Norris, F. B. Norris, M. O'Brien, G. Osborn, R. Phipps, A. H. Raikes, W. Strachan, A. M. Talbot, H. A. Wellesley, and C. G. Wellesley.

The Dinner was a great success, and it was decided to make it an annual event.

The Old Dovorian Football Club, although not as yet properly organised, played a match at Dulwich, on January 28th, v. Kent Rovers, a team of some standing. The O.D.'s won this, their first match, by 1 goal and 1 try to *nil*.

No minutes were kept of the earlier meetings of the Committee, but cricket matches were played by the Club that year:—v. Dover College and v. Dover Club.

R. Norris, who had been one of the founders, and had piloted the Club as Hon. Secretary and Treasurer, left England before the summer was over, to the regret of all O.D.'s.

Christopher B. Pike was elected by the Committee in his stead.

The first minutes of a Committee meeting are entered on October 8th, 1888. The Committee issued the rules of the Club and the match list which had been arranged. T. D. Bell was elected Captain of the Football Team.

The Old Dovorian Club won 4 (Middlesex Wanderers, Dover Garrison, Surrey Wanderers, Clapham Rovers), lost 5 (Kent Wanderers, Blackheath A, Kensington A, Royal School of Mines, Sydenham), and drew 3 (Dover College, Clapham Rovers, Marylebone) in the season 1888-89.

On December 16th a general meeting was held at Dover, with C. O. Maugham in the chair. The report of the Club's progress was read, and the balance sheet approved. The following officers were elected for the ensuing season, 1889-90:—H. A. Wellesley, Captain; C. B. Pike, Hon. Secretary and Treasurer; T. D. Bell, R. M. Bird, S. B. Hulke, C. O. Maugham, C. G. Wellesley, Committee. It was further decided that the Club be affiliated to the Rugby Union.

Since that date the annual Football and Cricket Matches with the School have been played each year. The Old Dovorian Football Club continued until the end of 1894, when, owing to the increasing difficulty of getting a representative team together, it was decided to abandon it.

In 1895 the custom of holding two informal "Mufti" dinners, one in June, and one in September, of each year, in addition to the Annual Dinner in January, was started. In the same year it was resolved to adopt dark blue, red and old gold as the Club colours. It was found, however, that these were practically identical with the colours of the Old Edwardians, and in 1898 light blue, dark blue, and red were adopted instead.

In 1893 an Old Dovorian Charity Fund was started, with the object of helping to support a cot in the Dover Hospital, which had been purchased with the St. Martin's Fund, *i.e.*, the Sunday offertories in the College Chapel, and which is called the "Dovorian" Cot; it was found, however, that the St. Martin's Fund was able to support it without assistance, and the money collected among Old Dovorians was handed over to the Vicar of

Dover for the Boys' Brigade. In 1895 this Old Dovorian Fund was discontinued.

In the same year, with a view to drawing more members to the Old Dovorian Club, A. W. Bartlett was elected Hon. Secretary for London, in addition to the existing Hon. Secretary and Treasurer at Dover. It was also arranged that Old Dovorian news and Club notices should appear in the O.D. column of the School Magazine, and that it should be sent gratis to all members of the Club.

The subscription for life membership was fixed at £3 3s.

In 1898 the first Old Dovorian cricket week was held. Matches were played under the captaincy of W. F. Hackman, with Dover Club, Sutton Valence, The Seaforth Highlanders, and Dover College, in all of which the Old Dovorians were victorious.

In 1907 a vigorous attempt was made by W. Johnstone and A. L. P. Griffith to revive the O.D.R.F.C., which had been in abeyance since 1894. Thanks to their energy and that of M. S. Rogers the attempt was quite successful. S. Nix was elected captain and eighteen matches were played, of which ten were won, six lost, two drawn.

The Club is now in the middle of its second season, and winning a good name for itself in the football world.

OFFICERS' TRAINING CORPS.

During the South African War the opportunity seemed to have arrived for starting a Cadet Corps. The movement was aided by the hearty support of the Earl of Meath, whose son was then at the College. In 1899 Earl Brownlow, who came to give away the prizes, practically inaugurated the Corps, which really came into being in January, 1900, and was attached to the 4th Battalion of The Buffs. A kit-room and armoury were formed out of the basement of the Gymnasium, miniature ranges were constructed on the middle ground and in the Gymnasium, and by permission of the Commandants of the Marines and the School of Musketry, the ranges at Kingsdown and Hythe have been used for rifle practice and the annual course firing. In 1906 a sub-target machine and ten match rifles were presented by our kind benefactress, Mrs. Bampton. In 1902 an Eight was first sent to Bisley to compete for the Ashburton Shield, which was brought back to the College four years later. In 1909 it was second for the Empire Cup (won by a military school in India), being several places above the highest of 56 other English Public Schools. The Cadets' Trophy was won two years in succession, each time with a fresh record score (1908-09). Records will be found at the end of the *Register*. In 1909 the College was added to the list of Schools eligible to compete for the Veterans' Trophy, the qualifying fee of £15 being subscribed in great part by Old Boys. In 1908 the Corps was forced to sever its connection with the "Buffs" and became a unit of the Officers' Training Corps. The first O.C. was Mr. Hugh Bryan, who was followed by Mr. (now Captain) E. C. Fisher. A list of Officers and N.C.O.'s, with Shooting Teams, will be found next after the Army List.

A is inserted in the margin against the name of every
old boy who has entered the Army, with reference
to page in the Army List which follows, where
promotions, etc., will be found. War Services are
appended in a separate list.

(not verified) after an address means that no answer has been
received to the Editor's communications, nor have
the latter been returned by the dead-letter office.

The date given after the name is the date of birth.

In the Index names printed in darker type denote Masters.

After any date, (a), (b), (c), denotes the 1st, 2nd or 3rd term of that year.

Where there are two addresses it may be generally understood that the
second is the more permanent.

For Officers in the Indian Army, the headquarters of the regiment is
given where it has not been possible to discover the Agent. This
will serve as an address.

The regimental addresses of officers in the English Army are not given,
as Regiments change their quarters so frequently; the address of
the Agent will always find.

When Col. Plunkett, with a small reconnoitring force, found himself in the presence of the Mullah's army, he fell back on to the open ground and formed a square. A dead set was made by the enemy's hordes against the officers, Plunkett himself being one of the first to be hit ; he also received a spear thrust but kept on to the last. When ammunition had nearly failed, a last effort was made and the gallant little force at Plunkett's command broke up the square and hurled themselves into the midst of the enemy ; more men fell, but still a firm front and magnificent courage were maintained, and finally the brave little band succeeded in cutting its way through. Col. Plunkett and Capt. Vesey, O.D., both lost their lives.

HOCKEY ELEVENS.

In 1897 Hockey was adopted as the School game for the Lent Term. A Cup was presented by *The Dovorian* for competition between the Houses (all ages); and this year (1899) House Matches have been instituted for under 16 teams also.

ATHLETIC SPORTS.

The Athletic Sports were held for the first time in the Summer Term of 1873, and, with the exception of the next year, 1874, have since then been an annual event.

The Sports up to and including those of 1879 were held on the ground of the Dover Cricket Club, which was lent to us for the day by the Members. At this time the whole of the Sports—trial heats as well as finals—were gone through in one day. The then Dover Cricket Club Ground—it is now entirely built over—was at the back of some houses along the London Road. It was not so large nor so far away from us as the Crabble Ground.

Until 1883 "The Ladies' Cup" was the prize for the Mile.

For this Cup, always a very handsome one, we were indebted to the initiation and energy of Frederick Finnis, Esq., who not only proposed its presentation but also himself annually collected the necessary funds.

In 1883 "The Ladies' Prize" was converted into a "Victor Ludorum Cup" (Challenge). The victor also received a medal.

The accounts of the Sports up to 1877 are taken from the local newspapers, and are lacking in some details. Since 1878 the accounts are taken from *The Dovorian*, which, however, ignores the 1881 Sports. The details recorded for this year are taken from the local papers.

From 1880—1892 inclusive the Sports were held in the College Close. Since 1892 they have been held on the College Cricket Field.

INTER-SCHOOL ATHLETIC SPORTS.

In 1897 a proposal emanated from the College to institute an Inter-School Athletic Sports Meeting, at which representatives from King's School, Sutton Valence School and Dover College should compete, and which should be held annually at Canterbury, Sutton and Dover, in rotation. The proposal was taken up by the other Schools, and the first meeting took place in March, 1897, on the College Cricket Field.

Two representatives from each School competed for all other events, and three for the Mile Race. The programme contained seven events, the same as those in the Inter-University Sports, except that Hammer Throwing and Weight Putting were excluded, and the Three Mile replaced by a Half Mile Race. The championship was decided by the number of first places gained, but in the event of a tie, second places were counted, and, if necessary, the third place in the Mile.

The contest was repeated four times, and Dover secured the Championship each year. After the fourth meeting (held at Dover) in 1900, Sutton withdrew, and the contests were abandoned.

Previous to 1865 this was a Handicap Race open to the whole School.

Discontinued.

N.B.—The accounts of the Sports are taken from the *Dorurian*; therefore there are no Records known before 1878.

† Before this date the Sports were held on the Dover Cricket Club Ground, but from 1880—1892 inclusive they were held in the College Close.

* No account given in the *Dorurian*.

‡ Since 1892 the Sports have been held on the College Cricket Field.

§ The Ladies' Prize formerly given for the Mile was in this year first given as the Victor Ludorum Challenge Cup and Medal.

Names in heavier type denote a Record.

ADDENDA ET CORRIGENDA.

* * * PLEASE READ THIS NOTE.

In case it should not be clear why certain Old Boys who have served in various campaigns are not in the Army List, it may here be explained that this list includes only Officers in the English (Regular and Territorial) and Indian Armies. Any information that it has been possible to obtain of Old Doverians who volunteered in Colonial Regiments will be found under their respective names in the main body of the Register. Besides these, a few served in the South African War, with the C.I.V. and Imperial Yeomanry, etc., but upon its conclusion resigned their commissions. Several of these have failed, so far, to return the forms sent them, but any details that have been ascertained have also been recorded in the main list.
